# Vehicles with SRS (Airbag)/SIPS bag/IC (Inflatable Curtain)

## Warning!

Extra caution must be exercised when working on vehicles equipped with SRS/SIPS bag/IC in order to avoid:

1. Personal injuries when performing repair work.
2. Damage or malfunction of the SRS/SIPS bag/IC system.

Work involving the SRS/SIPS bag/IC systems or other components in the vehicle that may affect the SRS/SIPS bag/IC systems must always be performed by an authorised Volvo workshop.

In case of doubt, consult the SRS and SIPS bag/IC service manual.

## Is the vehicle equipped with SRS/SIPS bag/IC ?

Vehicles with SRS are most easily recognized by the letters SRS in the center of the steering wheel. If the vehicle also has a passenger side airbag, the letters SRS are stamped on the dashboard above the glove compartment. SRS vehicles from 1993 and onward also have explosive seatbelt tensioners. SIPS bags are only installed on SRS vehicles from 1995 and onward. SIPS bag decals are located on the windshield and seat compartment. Vehicles with IC can be recognized by the letters IC on the C/D panel (4 door) or the B panel (5 door).

## General recommendations

- Be especially careful when working on or around SRS, SIPS, and IC components.
- Make sure that no wires are pinched, frayed, or pierced.
- Never fit accessories by the sensors.
- Where applicable, work on the steering wheel, steering shaft, or steering gear must be done in accordance with the methods in the SRS section of VADIS.
- Certain components of the aforementioned systems must be grounded while working. Read the appropriate sections in VADIS.
- Do not install any accessories in the areas between the A and B-pillar, the B and C-pillars, and the C and D-pillars.

## Test terminal

Data link connector in the passenger compartment.

## Changes introduced up to May 2000

Any changes made to the vehicles after this date are not included in the manual. If necessary refer to Service Bulletins.

Volvo models are sold in versions adapted for different markets. These adaptations depend on factors such as legal requirements, taxation, and market demands.

This manual may therefore include illustrations and text that do not apply to the vehicles in your country.

# Contents

This manual covers the electronic functions particular to the 2001 models of the S80 and the 2001 models of the V70 from VIN 026213. For model V70 XC, VIN 001100 applies.  
Service Manual TP 3947202 applies for earlier VINs.

**Order number TP 3950202**

Replaces the previous manual TP 3950201

Volvo retains the right to make amendments

A number of abbreviations are used in this manual. They are explained below.

## Country/market

A	= Austria
AUS	= Australia
B	= Belgium
CDN	= Canada
CH	= Switzerland
D	= Germany
DK	= Denmark
E	= Spain
EU/OS	= Markets except USA and Canada
FIN	= Finland
GB	= Great Britain
ISR	= Israel
J	= Japan
KOR	= Korea
N	= Norway
NL	= the Netherlands
S	= Sweden
USA	= USA
WEU	= Western Europe

## Other

ABS	= Anti-lock Brake System
ABS STC	= Stability and Traction Control system
ABS DSTC	= Dynamic Stability and Traction Control system
ACC	= Accessories
AUDIO	= Radio
AUTO	= Automatic transmission
DENSO	= Fuel control system gas 5 cyl.
DIESEL	= Diesel
EXT.X	= Extended x feed
HISPEED	= High speed bus
LH	= Left-hand side
LHD	= Left-hand drive
LOSPEED	= Low speed bus
MAN	= Manual transmission
ME7	= Fuel control system fuel, turbo 5 and 6 cyl.
MSA 15.8	= fuel control system diesel
OTHERS	= Others
PETROL	= Gas engine
RH	= Right-hand side
RHD	= Right-hand drive
RTI	= Road Traffic Information system
SUB-WOOFER	= Sub-woofer
SRS	= Airbag

## Colors

BL	= Blue
BN	= Brown
GN	= Green
GR	= Gray
OR	= Orange
P	= Pink
R	= Red
SB	= Black
VO	= Violet
W	= White
Y	= Yellow

# How to use the wiring diagram

The descriptions below apply in general to all wiring diagram manuals, although not all sections are necessarily contained in this manual.

## A. Component designation

Every component has a component designation that consists of two parts.

The first part is a type number that describes the type of component in question, for example 3/xx.

The second part of the designation is a serial number, for example x/2.

Combined these give a component designation, for example, 3/2.

At the end of the manual is a list of components, where, with the help of the component designation, you can read off the name of the component, for example 3/2 = Light switch.

## List of type numbers

This list shows the type of component to which each type numbers refers, for example, 3/x = switch, 6/x = electric motor, etc.

1	Battery
2	Relay
3	Switch
4	Control module
5	Combined instrument panel
6	Electric motor
7	Sensor
8	Actuator
9	Heating element
10	Lamp
11	Fuse
15	Distribution rail
16	Audio
17	Service/diagnosis
18	Contact reel
19	Meter
20	Ignition component/shunt
31	Ground connection
53	Junction point
54	Connector

## B. Junction points

The wiring diagrams contain numbered junction points, e.g. 53/352.

This manual contains a section with a list of junction points. This list shows all the components which are connected to each junction point.

The location of the junction points is shown in the "Cable harness routing in vehicle" section.

## C. Connectors

Connectors provide a bridge between two cable harnesses and are described in the "Connectors" section.

## D. Electrical distribution

Operation of fuses and relays is shown in the "Electrical distribution" section.

## E. Data communication

Today's cars contain a CAN network, which transfers information. The connections to this network are not shown in their entirety on each wiring diagram. Complete information about CAN communications can be found in the section "Data communication".

## F. Abbreviations

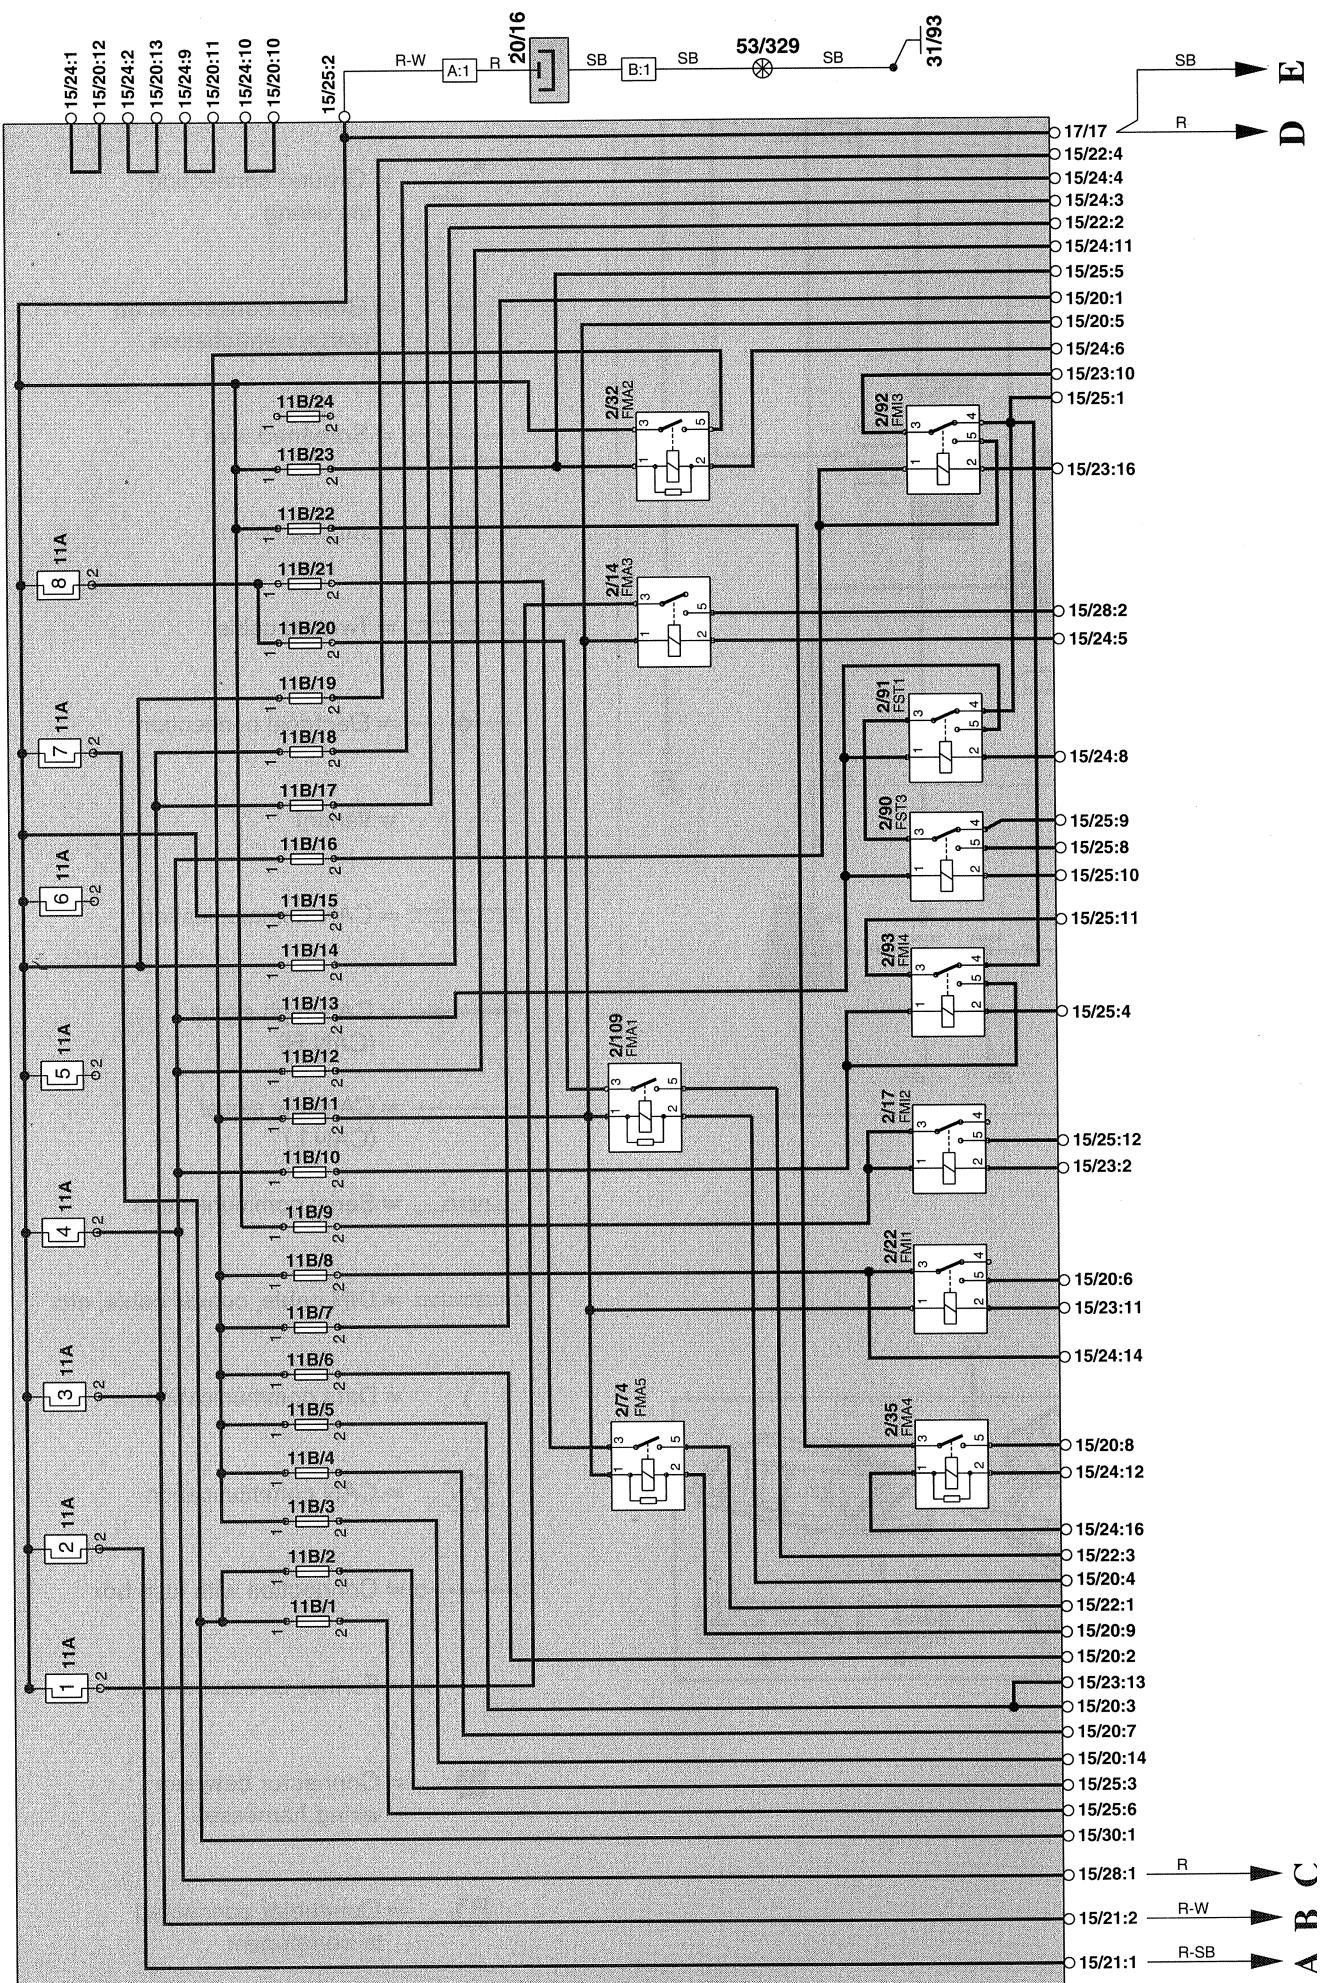

A number of different abbreviations are used in the manual. These are explained in the section "Abbreviations".

## G. Component location

There is a section at the end of the manual in which the appearance and location of components is described in numerical order.

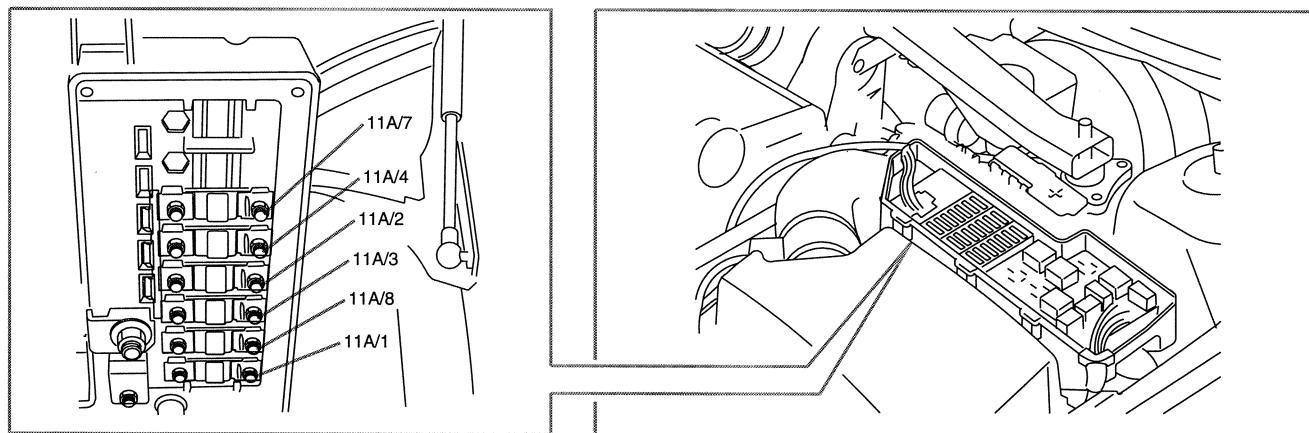

# Electrical distribution

# Electrical distribution Ignition switch and relays

3/1

## Relays, general

Two or three different designations for relay positions are given in the diagrams. These are described below.

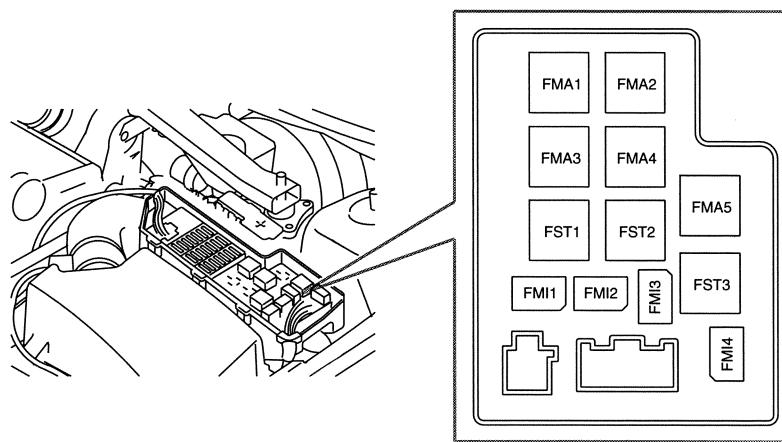

A = Corresponds to the position on the rear of the relay box (wiring side).

B = Corresponds to the position on the relay.

C = Is an old designation that can be on the relay.

## Electrical distribution

### Relays in the engine compartment

# List of components

1/1	Battery	3/1	Ignition switch
2/14	Relay, glow plug unit	3/4	Control module, SWS cruise control
2/16	Relay, intermittent rear window wiper on/off	3/6	Hazard warning flasher switch
2/17	Horn relay	3/8	Heated rear window/door mirrors switch
2/22	AC relay	3/9	Brake light contact
2/23	Fuel pump relay	3/10	Reversing light contact
2/29	Relay, extended X feed	3/25	Power sunroof switch
2/30	X feed overload relay	3/26	Power Seat Module (PSM), driver's side
2/31	15-feed overload relay	3/27	Power Seat Module (PSM), passenger side
2/32	Engine control module main relay	3/35	Trunk lid/tailgate handle switch
2/34	Fog light relay, front	3/37	Horn contact
2/35	Starter motor relay	3/47	Parking brake contact
2/49	Fog light relay, rear	3/53	Recirculation switch
2/52	15 feed relay, rear accessory	3/56	Fan switch
2/58	Locking relay, fuel filler flap	3/59	Beam adjustment actuator
2/59	Unlocking relay, fuel filler flap	3/60	Auxiliary light switch
2/61	Parking light relay	3/62	Hood alarm contact
2/62	Low beam relay	3/71	Gear position contacts
2/63	High beam relay	3/74	Lock unit, LH front door
2/64	Auxiliary light relay, accessory	3/75	Lock unit, RH front door
2/67	Relay, trunk lid/tailgate opening	3/76	Lock unit, LH rear door
2/72	Relay, rear window wiper	3/77	Lock unit, RH rear door
2/74	Relay, coolant heater 1	3/78	Lock unit, trunk lid/tailgate
2/75	Relay, adjustable head restraint, rear	3/80	LH central lock switch
2/79	Brake light relay	3/82	RH central lock switch
2/80	Reversing light relay	3/85	Power window switch, LH rear door
2/82	Heated rear window relay	3/86	Power window switch, RH rear door
2/83	Relay, fog light, trailer	3/91	Heated seat switch, LH seat
2/86	Trunk lid/tailgate locking relay	3/92	Heated seat switch, RH seat
2/87	Trunk lid/tailgate unlocking relay	3/93	Seat belt lock switch, LH seat
2/88	15 feed relay, rear accessory	3/94	Seat belt lock switch, RH seat
2/90	Relay, windscreen wiper, low/high speed	3/95	Spin control switch
2/91	Relay, intermittent windscreen wiper	3/111	Light control module
2/92	Relay, windscreen washer motor	3/112	Climate Control Module (CCM)
2/93	Relay, rear window washer motor	3/113	Adjustable head restraint, rear
2/101	Relay, extended X feed, automatic transmission	3/117	Dome light control module
2/109	Relay, coolant heater 2	3/119	Climate control switch, auto
2/111	Locking relay, LH rear	3/121	Climate control switch, defroster
2/112	Unlocking relay, LH rear	3/122	Climate control switch, ventilation
2/113	Locking relay, RH rear	3/123	Climate control switch, floor
2/114	Unlocking relay, RH rear	3/124	Temperature switch, LH side
2/115	Relay, deadlock, rear doors	3/125	Temperature switch, RH side
2/116	Relay, power window up, LH rear	3/126	Control module, LH front door DDM/PDM
2/117	Relay, power window up, RH rear	3/127	Control module, RH front door PDM/DDM
2/118	Relay, power window down, LH rear	3/130	Steering Wheel Module (SWM)
2/119	Relay, power window down, LH rear	3/131	Switch, audio/mobile phone
2/120	Relay, power window childlock, rear door	3/135	RTI switch
2/136	Relay, pager alarm	3/153	Switch, Power Childlock (PCL)
2/137	Relay, pager alarm	3/155	Program selector, automatic transmission
2/138	Door blocking relay, LH rear	3/156	Gear Shift Module (GSM), automatic transmission
2/139	Door blocking relay, RH rear	3/171	Switch, retractable door mirrors
2/142	Fuel preheater relay	3/173	Switch, trunk lid/tailgate private lock
		3/174	Switch, reduced alarm
		3/183	Switch, max defroster
